* HT and PC chainwheels fit only ISO specification chain

Nylon Inner Gypsy Sleeves (required with 367 series gypsies)

Imtra Item No.	Lofrans Item No.	Lofrans Drawing No.	Cross Reference Gypsy
LWPBB042	63098	437a	367a, 367l
LWPBB042/55	630940	437c	367b, 367c, 367d, 367e, 367f

Important Note:

The above chainwheels are designed to fit short link chain only; BBB, ISO spec, etc. to maximize the number of pockets and gripping. Chain is manufactured by many sources. It is critical to match the chain to the chainwheel, therefore please be careful when sizing. Imtra only offers short link chain, BBB and ISO Spec. Do not use NACM spec chain as these have longer links and will not work in a windlass. Non-ISO chain sizes like NACM spec or miss-matching the chain and gypsy may allow the chain to skip in or jump from the gypsy pockets.

Older Models:

If you have an older Lofrans model, we are likely to have replacement wheels available. Please contact Imtra by phone (508-995-7000) or by email (info@imtra.com) for assistance sourcing the right wheel for your windlass.
