

HALO

The most advanced, compact liferaft in the world.

The Superior Life-Saving Equipment HALO is the perfect liferaft for smaller vessels or coastal boaters. The HALO is the only vacuum sealed liferaft in its class, allowing for 3 year service intervals in line with the rest of Superior Life-Saving Equipment's lineup. Each HALO comes standard with an insulated floor and offshore ballast system to provide safety and additional stability on the water. HALO liferafts are heat welded, giving you a more durable and longer lasting product compared to hand glued rafts from our competitors.

- ⊗ Vacuum sealed for added protection and extended 3 Year service intervals
- ⊗ Heat welded seams
- ⊗ Removable Insulated floor
- ⊗ Superior green hull for added visibility on the water
- ⊗ 4* oversized weighted ballast bags
- ⊗ Automatically deployed 4 rung boarding ladder
- ⊗ Stainless steel tow ring and hardware throughout
- ⊗ 6 Year Warranty
