

CARBON FIBER TELE-OUTRIGGER POLE

Introducing our first-ever Carbon Fiber Outrigger Poles for the ultimate offshore fishing experience. Our patented innovative design was built to meet the demands of those who need to get the most out of their high-performance fishing boats. Our Carbon Fiber Tele-Outrigger Pole is by far stronger and lighter than any other aluminum pole on the market today. The cylindrical design has the strength to allow for pulling full, triple-tier dredges of ballyhoo, mullet or squids at higher speeds.

FEATURES & BENEFITS

- Patent US 11,116,197
- UV-resistant, clear coated black carbon fiber pole construction
- Type-316L swivel rings and anodized aluminum collars
- Double outrigger line design on the 16' poles and triple outrigger line design on the 20' poles for either mono or Dacron
- Patented swivel roller design allows for movement of the rollers to swivel in the direction of lures or bait
- Telescopes to less than 8' for bridge clearance, trailering and storage
- Designed for use with universal mounts or our Grand Slam Mounts
- The 16' pole is ideal for boats under 35' long
- The 20' pole is ideal for boats up to 50' long
- Includes adjustable roller line caddy with stainless steel rollers with brass bushings - allowing for easy rigging to the T-top or gunnel and better line management
- Locking pin design keeps poles from collapsing when fully extended and allows for easy collapsing when storing
- Sold in Pairs

Patented Swivel collar Design

Line Caddy for 20' Pole

Line Caddy for 16' Pole
