Dimensions shown in inches

* USCG, ISO and SAE certified for Ignition Protection. Completely sealed lights have been tested in an explosive environment and exposed to an explosive atmosphere in high temperature that includes powering on-off 50 times without igniting the atmosphere at a temperature not exceeding 200 degree C. These certificates demonstrate the ability to consistently provide product that meets statutory and regulatory requirements that assure customer satisfaction and safety. Ideal for use in engine rooms, battery compartments and anywhere fire safety is of most importance.
