You can find your battery model number by looking on the silver tag on the underside of the battery.

rev:1919

FAQ's

Can a newer battery be used on an older motor?

Yes but you must also purchase a new compatible charger. See chart above.

What came with the Motor?

Motors that came with #1144-00, #1145-00 or #1413-00 battery, also came with a #1127-00 (Sku 455097) 40W charger. To charge these batteries faster, you can add #1131-10 (sku 456285) 120W charger. Motors that came with #1146-00, #1147-00, 1148-00, 1416-00, or 1155-00 battery included a #1133-00 (Sku 456775) 90W charger. This is Standard Equipment now.
